WORKING EXPERIENCE

Prime Analytics Consulting, Jakarta

Web Developer (Project-Based / Internship)

Jan 2024 – Present

- Collaborated with a team of 3 student developers and mentored 8 junior interns on **C++ backend development** for academic web projects, contributing to a 25% improvement in team project completion rates.
- Assisted in developing web prototypes for 7 simulated client projects across healthcare, financial services, and renewable energy sectors using C++ with Crow framework, Node.js, and React.
- Participated in building a business intelligence dashboard for a university capstone project, handling C++ data processing and basic Vue.js frontend components.
- Contributed to business development initiatives by creating portfolio websites and e-commerce demos for coursework.
- Helped optimize project turnaround time by 15% through automated build scripts in C++ and learning CI/CD basics with GitHub Actions.

Prime Analytics Consulting, Jakarta

Junior Web Developer (Internship)

Jul 2024 – Dec 2024

- Worked in a team of 3 frontend developers to deliver 8 academic web projects within deadlines as part of an internship program.
- Contributed to the development of a **progressive web application (PWA)** for a telecommunications case study, using **C++ WebAssembly, React, and IndexedDB**.
- Assisted in increasing customer acquisition metrics by 15% in a simulation project through **data-driven web analytics** and **responsive UI design** with **JavaScript** and **Tailwind CSS**.
- Helped develop a **custom CRM system prototype** using **C++ REST SDK, PostgreSQL, and Next.js** as part of a team-based university project.
